COVID-19 SITUATION REPORT #8

APRIL 23, 2020

Severe Weather Risk

Thursday, April 23

	MARGINAL	SLIGHT	ENHANCED	MODERATE	HIGH
Overall Risk	Green	Yellow	Orange	Red	Dark Red
TORNADO	Green	Yellow	Orange	Red	Dark Red
DAMAGING WINDS	Green	Yellow	Orange	Red	Dark Red
HAIL	Green	Yellow	Orange	Red	Dark Red

	MARGINAL	SLIGHT	MODERATE	HIGH
FLASH FLOODING	Green	Yellow	Orange	Red

Severe Weather Overview:

Round 1 is ongoing this morning for areas north of I-10, gradually weakening as it moves closer to the Apalachicola River. Another round of severe weather is likely to develop this afternoon and move across all of North Florida through tonight. All types of severe weather are possible, including tornadoes. There is the possibility of some strong tornadoes (EF-2+) across much of the Panhandle and inland Big Bend.

CDC Updates for Respirators

- Decontamination and Reuse of Filtering Facepiece Respirators
- Strategies for Optimizing Supply of N95 Respirators

LSU NCBRT/ACE Preparedness Podcast

LSU National Center for Biomedical Research and Training informational videos (these must be requested by LSU to view).

SAFER AT HOME

This 3-and-a-half-minute video presentation introduces several safety measures that emergency responders and other essential personnel can use before and after shifts to minimize the risk of introducing the coronavirus to their homes.

CDC SEQUENCE FOR DONNING AND DOFFING PPE

A 6-minute video that walks viewers step-by-step through the guidelines prescribed by the CDC for donning and doffing a gown, mask/respirator, face shield, and gloves.

COVID-19 ROLL CALL TRAINING

https://ncbrt.formstack.com/forms/covid19_roll_call_request

In order to ensure officer safety during the COVID-19 crisis this 18-minute training video for law enforcement provides information on how officers can keep themselves safe before, during, and after contact with others in the course of their job. It also addresses the steps officers can take at the end of a shift to protect their loved ones.

SURGEON GENERAL'S PRIORITIES

Florida's 5 STEPS to Prevent COVID-19

1 STOP INTRODUCTION

Stop Introduction into Florida from out of state.

2 TEST, TEST, TEST

Leverage testing capabilities & work to expand capacity.

3 ELDERLY & VULNERABLE PROTECTION

Protect the elderly by increased mitigation and messaging at assisted living centers, nursing homes, and other special facilities.

4 PREPARE HOSPITALS

Assess the potential impacts and course of action for hospitals and bed capacity.

5 SOCIAL DISTANCING

Continue to message social distancing.

ESS INFORMATION FOR REPORTING FACILITIES

- ESS is critically important for the State to anticipate demand in the hospital & sub-acute care setting. This data influences decisions on the need for additional support and equipment requests from federal government.
- Facilities MUST verify and update data 2x daily.
- ESS is adding more fields daily. Instructions on these new fields available on the AHCA ESS website.
- Hospitals should estimate the number of med surge beds that can be converted to ICU beds. Do not duplicate bed numbers in different categories. Start with highest acuity beds.
- Corporate Representatives can be established to monitor data entry at individual facilities. Contact AHCA for assistance
